Profile

My current objective is to work in the automotive industry within the design department. As a designer included in my projects are exterior and interior designs. The majority of my projects are interior based. My intention is to bring the theme of luxury into car interiors, as I personally feel that the future of interior design is heading towards a cold gadget-like aesthetic look.

Skills

2D Sketching Adobe Photoshop Adobe Illustrator Clay modeling

Experience

During the second year of my degree I got the opportunity to work with a live brief from Elva. The brief was to design a GT lightweight sports car. My role in the design team was to design the interior of the vehicle. Elva stated that this vehicle will be put into production in the near future.

Education

University Of Wales Trinity Saint David (2013-2017)

Mdes Automotive Design (2:2)

University Of Wales Trinity Saint David (2013-2016)
